

# Amir Reza Majidi

## Cognitive Psychology Researcher

DoB: 1999-03-31  
Marital Status: Single  
Military Service: Educational  
Exemption

The relationship between mind and body, the phenomenon of learning and functions such as memory and attention have been interesting and attractive to me since high school. Getting to know Brain Gym Academy was a turning point in my life and helped me a lot in finding the path of my future work and academic life. I recently participated in the master's exam in cognitive science and I have decided to work and study in the field of cognitive psychology and neuroscience (especially addiction).

## Education
